"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife...

(from The American Journal of Numismatics, Vol. 1,No.1, May 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or no reason. My business depends on attracting repeat customers. It does neither of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA and MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct

from the technical grade based on their presence. As an example a coin might be described: "1805 S-267 VF20 Sharpness of VF30 with smooth brown surfaces, some light pinscratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed It is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC rarity ratings as compiled by Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings die state and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large Cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgments and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discriminating collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson, (who's collection did very well for him when it was sold in 1989), likes to say. THINK ABOUT IT! When you ask a cat which canary to buy remember his

first concern may not be how well it sings! There are many opportunities to do well financially in rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

COLONIALS

1787 M.12-G F12+ (R-5) 141.0 gns. $ 625.00
A No Coulter variety that is a relatively light olive brown with surfaces that are smooth where undamaged. The damage in question for the most part are surface nicks. There is a faint yellowed ink 5 in the left obverse field, a remnant from a prior identification marking. This coin was lot 16 from the Griffee Sale.

1787 M.12-I F (R-5) 162.1 gns. $ 625.00
A second No Coulter variety, though of the same assigned rarity as the M.12-G it is slightly less plentiful. This is Griffee lot 17 from the 10/95 M & G sale where it was reliably estimated that about 50 examples of this variety survive. Fairly even light porosity on both sides, a bit worse in a few spots, color predominantly a pale golden olive.

1786 M.14-J VF $ 275.00
Virtually the only thing that can be said against this example is that it circulated. It has one faint pin scratch through the plow handles on the obverse but it is trivial. Smooth glossy light brown, the way most of us wish all of our coppers could be.

1786 M.15-u VF/EF (R-6) $ 395.00
Technically this coin is close to EF, and the grade here given is technical only. Though there is a minimum of actual wear portions of this coin have a sand blasted effect where cumulative micro pitting has eroded the copper.

1786 CT M.4.1-F.4 F/VF (F15) $ 175.00
The distinctive "African Head" variety. A lovely light brown, both sides highly reflective though lightly porous.

1783 NOVA CONSTELLATIO CROSBY 3-C BLUNT RAYS VF35 $ 425.00
A tiny rim bruise only visible on the reverse above the first O of CONSTELLATIO. Otherwise problem free on a glossy olive brown planchet. An excellent type coin.

1795 WASHINGTON NORTH WALES HALFPENNY F15 $ 235.00
Even the highest grade pieces display weak detail, generally grading is done by the quality of the surfaces which on this example is excellent; hard and glossy with a minimum of surface marks.

WASHINGTON SUCCESS TOKEN-LARGE PLANCHET AU53+ $ 750.00
REEDED EDGE-BREEN 1282. The "Roman Nose" variety. A glorious example beaming with original brass luster on choice hard surfaces. Sharply and evenly struck. A tiny light toning spot behind George's hair and another on the reverse.

1787 FUGIO N.4-E VF35 $ 535.00
A deep olive brown with obverse highlights a bit lighter. Some fine granularity towards right of obverse. Perfectly centered and evenly struck, the reverse in particular retains a lot of flash which adds significant appeal to a darker coin. A small toned scrape inside reverse label starting at the top of the second E is fairly well hidden. Overall a nice example of a Club Ray Fugio.

1787 NJ M.46-e EF40 $ 595.00
Though among the most common of New Jersey varieties die clashing almost always obscures all or part of the date depending on the die state. This coin is struck from the scarcer and desirable early state with a full crisp date, though heavy clashing remains in the fields as always. Alternating golden brown and dark olive brown with the reverse a bit lighter, generally pleasing in appearance with lightly granular surfaces. Strong differentiation in the mane and a sharp shield make this coin hard to improve on for strike. Lot #342 from M & G's 10/95 C4 Auction.

USA BAR COPPER VF+ $1325.00
An original example of this ever popular type coin with a design which, like the coin itself, is never dated. Detail is crisp and even with overlapping of the letters evident. Both sides with moderate porosity in the fields which remain reflective. Pleasing coloration tends to minimize the porosity, with raised portions all tan while the fields display a subtle interplay of deeper browns giving this coin a cameo look that is nicer than might be expected from the written description. Some faint fully toned scratches are present on the bars. While the surfaces of this example have some problems as noted, it remains attractive and much more affordable than a pristine example with comparable visual appeal.

1787 FUGIO N.8-X AU $ 585.00
A Bank of New York hoard variety with very little evidence of actual wear, but with he characteristic die break on the obv. descending vertically from the lower sun dial to the rim softening detail in the center left bottom legend with a few of the central letters there illegible as a result.

1792 KENTUCKY TOKEN-PLAIN EDGE AU $ 350.00
A choice example for this grade. A rich chocolate brown warmed by substantial undertones of original mint color now muted. Hard surfaces with very few contact marks and no problems.

1787 MASSACHUSETTS R.8-C EF $ 595.00
A quality coin, medium chocolate brown with faint wood grain toning, smooth and glossy.

********* ANNOTATED SALES. I AM A STRONG BUYER! ********

The evening of August 17th we held the Gary Ruttenberg II sale in Denver Colorado. This was our most successful sale to date resulting in a hammer price of over $436,000 and a total pricesrealized of over $4800.000 after buyers commission. As usual we had great support from our mail bidders as well as floor bidders with 575 lots in the sale we had over 100 successful bidders. The early offering of Half Cents contained several interesting pieces. I liked the VF35 1797 C-1 LDS which sold to an Eastern collector for $2430. A die state collector represented by dealer Don Valenziano purchased lot 14 the rare die state of 1803 C-2. Only a G4+ coin it realized $1210. Don has supported our sales since the beginning and regularly represents several clients at each sale. This can be a good way to bid at auction as the fee for representaion is very small compared to the benefits. When we have a bid on the book we execute it up to the maximum indicated. A representative like Don,(or others like Del Bland, Denis Loring,Tom Reynolds,Chris Young,Steve Ellsworth, Doug Bird, Julie Leidman,Jim McGuigan, or Tony Terranova, all of whom also represented clients at the sale.) can provide "an extra set of eyes" ,valuable advice, and will rarely let that must have lot slip by for ten dollars over your maximum. The 1804 C-6s always provide some surprises. The Braig state 0.5 F12 and double struck brought $1111,and the VG8 Braig 2.2 $308. A VG10 state 7.5 brought $230 and the VF30 Braig 8.0 brought $418. Occasionally we hear from consignors concerned about the strict gradingweuse. But when the AU58 1849 C-1 brings $418 like lot 59 everyone is satisfied. In my experience bidders confident of the quality of the catalog ,the grading and the descriptions will "stretch" for the coin they want. But if the bidders are afraid the grade might be inflated or
